

statusstamp

Fourteen ways to mark a document

Original appearance
text=SUBMITTED, angle=11, seed=7319

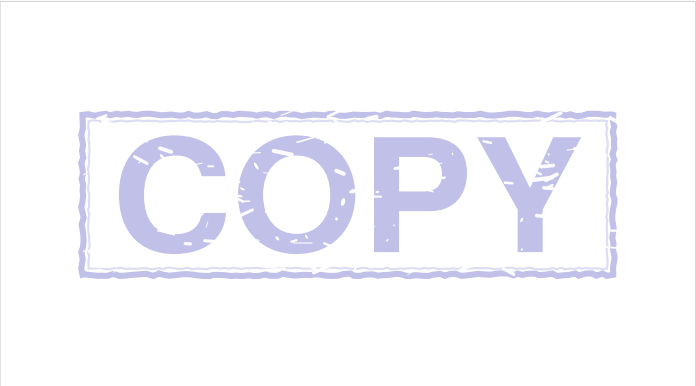

Accepted with a date
text=ACCEPTED, date={12 September 2026}, color=teal!70!black, angle=-8, scale=.9

Clean borders
text=DRAFT, distressed=false, color=black!65, angle=0, scale=.85

A different label and color
text=CONFIDENTIAL, color=blue!55!black, angle=-6, scale=.9

Light ink
text=COPY, color=blue!65!black, opacity=.25, angle=0, scale=.9

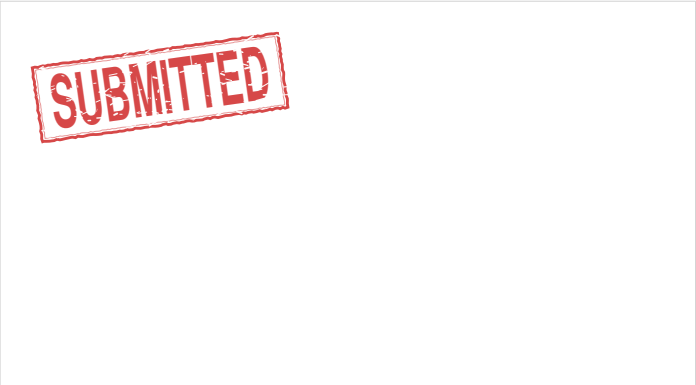

Another repeatable wear pattern
text=REVIEW, color=orange!80!black, seed=42, angle=7, scale=.9

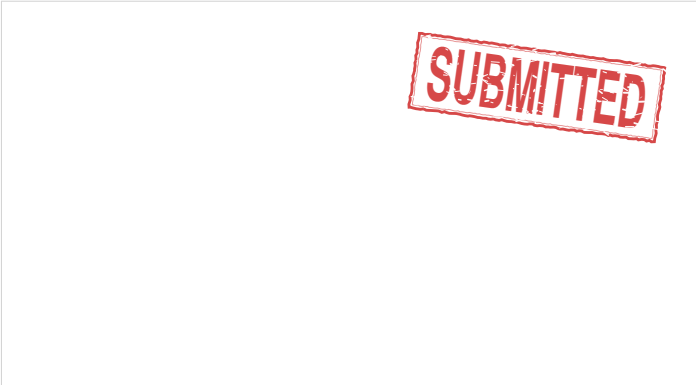

Project record
Under the source text
layer=background, scale=.9

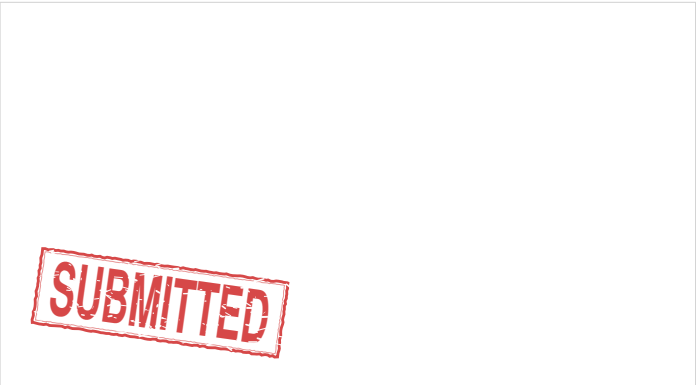

Project record
Over the source text
layer=foreground, scale=.9

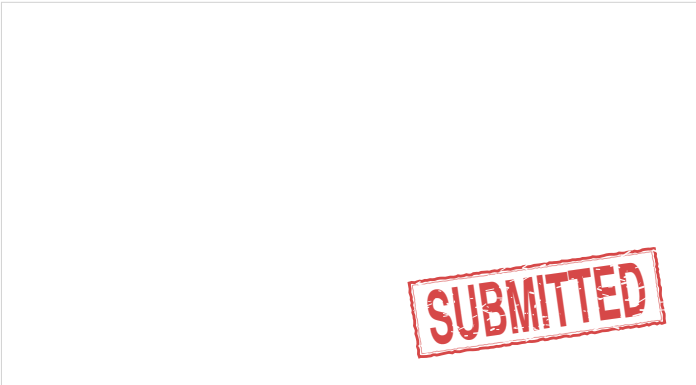

Top left
position=top-left, scale=.42, angle=8

Top right
position=top-right, scale=.42, angle=-8

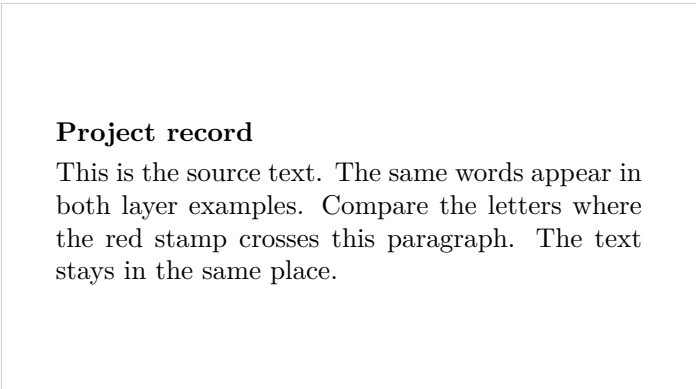

Bottom left
position=bottom-left, scale=.42, angle=-8

Bottom right
position=bottom-right, scale=.42, angle=8

Colored paper
text=ARCHIVED, color=brown!80!black, paper-color=samplepaper, angle=-5, scale=.9

A clean document
enabled=false

Each preview is a real 9 cm by 5 cm page. Corner examples use margin=.35cm. Other options retain their defaults. The date is illustrative. Colored paper uses `samplepaper` (HTML F3E9D3) for both `\pagecolor` and `paper-color`.
